## Personal Statement

---

I am an outgoing individual with a passion for personal and professional growth. In seeking employment I am looking for a team-oriented facility that practices gold-standard medicine and surgical techniques.

## Education:

---

Western College of Veterinary Medicine, Saskatoon, Saskatchewan

- Doctor of Veterinary Medicine (DVM), **2019**

University of Manitoba, Winnipeg, Manitoba

- Undergraduate/pre-requisite courses, **2012-2015**

## Employment:

---

**Bridgwater Veterinary Hospital and Wellness Center (Winnipeg, MB)    October 2022  
– Present**

### Associate Veterinarian

- Part time/locum from October 2022-March 2023, then full-time position as of March 2023
- Primarily small animal emergency medicine and surgery (feline, canine, and occasional exotics)
- Wellness appointments during day-time shifts
- Surgeries including exploratory laparotomies, pyometras, GDVs, cystotomies, and wound repairs

**Central Veterinary Services (Oak Bluff, MB)**

**March 2020 – March 2023**

### Associate Veterinarian

- Full time position from March 2020-October 2022, then part time until March 2023
- Provided small animal wellness, medicine and performed routine surgeries including dentals

**Pembina Veterinary Hospital (Winnipeg, MB)**

**May 2019-March 2020**

### Associate Veterinarian

- Full-time position

- Small animal (feline and canine) services include wellness, emergencies, routine surgeries and dentistry

## **Volunteer History:**

---

### **Canadian Challenge Dog Sled Race**

**Winter 2019-Present**

- I volunteer for a week every February providing veterinary care for sled dogs during the Canadian Challenge Dog Sled Race
- Duties include pre-race health checks, mandatory health checks during the race, and on-trail emergency care

### **Long Plains Spay and Neuter clinic**

**Summer 2021**

- Responsible for cleanliness of the island grounds and enclosures, feeding and providing comfort and play to the monkeys, welcoming and guiding tour members

### **Community Veterinary Outreach Program**

**Fall 2017/2018**

- This program is designed to provide free veterinary care to patients of low-income households

## **Continuing Education**
